Durability

Two (2) Years Indoor

Adhesive Release

Removable

Compatible Inks

Eco-Solvents, Solvents and UV-Curable

Applications

Clean, Dry Walls with Smooth Surfaces including Painted Walls and Most Types of Wallpaper

Maximize advertisements and promotional displays with GMI's Solvent-Print Media Wall Graphics solution for offset, digital and screen printing applications.

With three caliper thicknesses—4.0, 6.0, and 8.0 mil—to ensure maximum compatibility, Wall Graphics can be applied to clean, dry walls with smooth surfaces such as painted walls and most types of wallpaper.

A flexible vinyl film coated with a specially formulated ultra removable and reusable low tack adhesive, it can be saved and reused when reapplied to the release liner.

Additionally, Wall Graphics can be top coated for improved ink adhesion for all traditional printing methods. It can remain applied for up to two years.
